

# Under The Moonlight

Travis

Can you see the moon be  
In the colors of the lights  
They're like flowers  
Blooming in motion

Watching in vain  
Unless fireworks of the night (tonight)

I begin to wake  
To relive this memory  
The answer is clear  
And beyond believe

There's a gift of love  
That awaits the final day  
But tonight...tonight...

Under the moonlight  
With the one you love  
Under the big sky  
For the one you love  
Bathing under the moonlight  
With the one you love  
Going places together  
Tonight

In the far distance  
As a dream nears the end  
And summer lovers pass the time  
Holding on to what they can't keep

Into that horizon  
Where the ocean meets the sky  
So gather up your voice  
'cause tonight's the night (tonight)

Under the moonlight  
With the one you love  
Under the big sky  
For the one you love  
Laying under the moonlight  
With the one you love  
Going places together  
Tonight (tonight) (tonight)

Stars light up with coast light  
And we'll feel this way for today  
And for all time

Under the moonlight  
With the one you love  
Under the big sky  
For the one you love  
Laying under the moonlight  
With the one you love  
Under the moonlight  
Oh we're going places together

Tonight (tonight)

Tonight (tonight)

Tonight (tonight)

Tonight (tonight)

Under the moonlight
