

# Where You Stand

Travis

Bumper car me left or right  
I'll take a thousand knocks  
There's a happy man in there  
And you won't blink your eyes  
Like all the things you lost before I  
Right where you left me you know-oh  
Like all the things you found  
Mmm mmm  
Don't taste them just swallow them whole

I forfeit my time  
And wait  
While you make up your mind  
So tell me  
If you ever find your flag  
Cause I will be right by you where you stand

Lift me up or tear me down  
I'll stand right up again  
There's happy soul in there  
But you won't let him in  
Like all the things we say before me  
Crumble and fall to the floor  
Like all the things we try  
Aye aye  
I know where it's headed and so

I forfeit my time  
And wait while you re-make up your mind up  
So tell me  
If you ever find your flag  
Cause I will be right by you where you stand  
Oh I will be right by you where you stand  
I will deliver  
Where you stand I will not fall  
Where you stand there is no ocean  
Nor a river nor a shore

I fall into line  
And wait while you make up your mind  
So tell me if you ever find your flag

I forfeit my time  
And wait  
While you make up your mind  
So tell me  
If you ever find your flag  
Cause I will be right by you where you stand  
Oh I will be right by you where you stand  
Oh I will be right by you where you stand
