

A Life To Die For

Treat

I see you breathing
I feel your love inside of me
You found me broken
But now I'm all I wanna be
You saved my world when it began to fall apart
Now here's a message from the bottom of my heart

You gave me a life to die for
When all I had was make-believe
A life to die for
Now I know what it means
Living an endless encore
With angels singing by my side
A life to die for
A love like yours makes me wanna live

I thanked you, no really
It's just as real as it can be
The bad days are over
And it's as far as I can see
I don't think I ever would have made it on my own
I was hardly breathing by the time you came along

You gave me a life to die for
When all I had was make-believe
A life to die for
Now I know what it means
Living an endless encore
With angels singing by my side
A life to die for
A love like yours makes me wanna live

Am I asleep or awake? Oh yeah
Is it a mirror about to break?
But I feel no pain
It's as real as rain
I won't let it slip away

You gave me a life to die for
When all I had was make-believe
A life to die for
Now I know what it means
Living an endless encore
With angels singing by my side
A life to die for
Loving you makes me wanna live

(A life to die for) Yeah
(A life to die for) Makes me wanna live
