

Breathless

Treat

Sweep me off my feet
Make me gasp for air
Hit me, blind my sight
Like a flash out of nowhere
Cause I know you're more than meets the eye
I can read between the lines
Can't let you pass me by

Cause you leave me breathless
My blood runs faster
One kiss, I'm in your twister
Lift me up to higher ground
You leave me breathless
My heart starts rushing
One kiss and walls come crushing
Lift me up to higher ground
And I can't come down

Bring me to my knees
Show me something real
Take me for a ride
'Til I fall asleep at the wheel
Cause I know, there's no one else like you
The damage that you do
I'm dying in your arms

Cause you leave me breathless
My blood runs faster
One kiss, I'm in your twister
Lift me up to higher ground
You leave me breathless
My heart starts rushing
One kiss and walls come crushing
Lift me up to higher ground

(You lead me on again)
(You keep my fire burning)
You lead me on again
You keep my fire burning, oh yeah

Cause you leave me breathless
My blood runs faster
One kiss, I'm in your twister
Lift me up to higher ground
You leave me breathless
My heart starts rushing
One kiss and walls come crushing
Lift me up to higher ground
And I can't come down

You leave me breathless
You leave me breathless
Oh yeah
