Sweep me off my feet

Make me gasp for air

Hit me, blind my sight

Like a flash out of nowhere

Cause I know you're more than meets the eye
I can read between the lines

Can't let you pass me by

Cause you leave me breathless
My blood runs faster
One kiss, I'm in your twister
Lift me up to higher ground
You leave me breathless
My heart starts rushing
One kiss and walls come crushing
Lift me up to higher ground
And I can't come down

Bring me to my knees
Show me something real
Take me for a ride
'Til I fall asleep at the wheel
Cause I know, there's no one else like you
The damage that you do
I'm dying in your arms

Cause you leave me breathless
My blood runs faster
One kiss, I'm in your twister
Lift me up to higher ground
You leave me breathless
My heart starts rushing
One kiss and walls come crushing
Lift me up to higher ground

(You lead me on again)
(You keep my fire burning)
You lead me on again
You keep my fire burning, oh yeah

Cause you leave me breathless
My blood runs faster
One kiss, I'm in your twister
Lift me up to higher ground
You leave me breathless
My heart starts rushing
One kiss and walls come crushing
Lift me up to higher ground
And I can't come down

You leave me breathless You leave me breathless Oh yeah
