

Get You on the Run

Treat

Woke up this morning all alone
First time, I'm on my own
We were so close
But all of a sudden you were gone
How could you ever leave me there
When you knew it wasn't fair?
Must fight to stay alive
You put my heart in overdrive

(Hold on) without a doubt
(Hold on), my time is running out
I've been chasing you all over town
Like a king without a crown

Get you on the run
Find you all alone
I'm gonna take you
Back where you belong

I've been out in the streets for days
Desperately, I search for a trace
Don't be too rough, come on and give me a sign
Can't you see my love's on the line?

(Hold on) without a doubt
(Hold on), my time is running out
I've been chasing you all over town
Like a king without a crown

Get you on the run
Find you all alone
I'm gonna take you
Back where you belong

Still on the prowl
But I never give up
I know it's insane
But, darling, all this be* (sic) in vain

(Hold on) without a doubt
(Hold on), my time is running out
I've been chasing you all over town
Like a king without a crown

Get you on the run
Find you all alone
I'm gonna take you
Back where you belong
