

## No Way Without You

Treat

I can see you on my radar  
From a million miles away  
It's the beep that keeps me going  
Take it day by day  
In a world so full of strangers  
That wants my soul to keep  
You're the one who saves my sanity  
When I fall too deep

So hold on, be strong baby  
Long gone, I just wanna say

No way without you, no way without you  
You're everywhere, in everything I do  
No way without you, no way without you  
You're all I am and all I want is you

It's the scent of you that lingers  
On the road that never ends  
Gotta find the fuel to render, my adrenaline  
When I'm dying to be near you  
Feeling lost and out of mind  
I could let it ache, or pull the break  
Lay it on the line

So hold on, be strong baby  
Long gone, I just need to say

No way without you, no way without you  
You're everywhere, in everything I do  
No way without you, no way without you  
You're all I am and all I want is you

So hear me now, I'm on my way  
Just be strong, I'm coming home

No way without you, no way without you  
You're everywhere, in everything I do  
No way without you, no way without you  
You're all I am and all I want is you  
You're all I am and all I want is you
