

Tangled Up

Treat

Youve got the key to unlock this town
Put hearts in overdrive
We sweat it in the devils playground
It makes me feel alive
The way you walked into the room
Got me howlin at the moon
I aint too proud to beg...

Tangled up, in you love knock me down
til I come out on top, tangled up
Tangled up, in your spell
And it sure feels like heaven and hell
You got me tangled up

Theres no rule that I have to follow
Its crazy how I feel
You make me live like no tomorrow
Tonight is a done deal
You got me coming on too soon
Got me howlin at the moon
And now you make me pay

Tangled up, in you love knock me down
til I come out on top, tangled up
Tangled up, in your spell
And it sure feels like heaven and hell
You got me tangled up

And every night when Im alone
Theres a chance I dont make it home
Cause I just need to feel you near
When its clear, Ill be there, for you

Tangled up, in you love knock me down
til I come out on top, tangled up
Tangled up, in your spell
And it sure feels like heaven and hell
You got me tangled up
