

The War Is Over

Treat

I feel it with my every heartbeat
Im in a prison, gotta break free
My heart is on the line
I gotta get som peace of mind
Diggin trenches, growin colder
Cant keep my head above the water
We dont see eye to eye
So Im gonna set the record straight
Tonight...

The war is over a sweet surrender
Alls forgiven my troops are leaving
The war is over we all know nothing
Lasts forever the war is over

Im in the dark, I walk a minefield
Your silence speak to me so loud and clear
This fight is wearin thin
Its like a battle we cant win
So tonight...

The war is over a sweet surrender
Alls forgiven my troops are leaving
The war is over we all know nothing
Lasts forever the war is over

I better turn and walk away
Gotta leave without a trace
Im laying down my arms tonight

The war is over a sweet surrender
Alls forgiven my troops are leaving
The war is over and skies will open
Dust will settle the war is over
The war is over
The war is over
The war is over
