

Case In Fact

Treble Charger

If the phone doesn't ring
It's me
I know things won't work out
Don't believe
There's a glass between something
You saw before
And the wrong impression left
Leaves no more

Tell a lie
Case in fact

I feel the same
A lot can go on in my place
I need to know
Why in the end things turned out wrong
I know

When the things you've done won't lie awake
I think I'd be on the first mistake
No one understands this badly
I might as well
You might guess the same yourself
But it's so hard to tell

If you like,
I'll be more exact

If you agree,
We'll make a pact
