

I'm tired of thinking less
Of what you heard me say
I'm troubled I confess
It's clear that I can't stay
Surrender now I guess
Safe to face the light of day
I'll tell you all the rest
It'll have to be on the way

If I live that long
Don't think I'm that strong
I wish I was wrong
But that's not likely

Driving through the night
The street lamps shine so bright
Oh they're so bright

Everything will pass
Like a car with tires that squeal
Cause it's driving way too fast
And it's me behind the wheel

I know it's been a blast
Don't know how i'm supposed to feel
The more i hit the gas
The less it seems to be real

I won't live that long
But i do feel strong
You can prove me wrong
But that's not likely

Driving through the night
The street lamps shine so bright
But I don't feel all right

Driving through the night
The street lamps shine so bright
But I don't feel all right

Driving throught the night
And it's alright
