

## Ever She Flows

Treble Charger

The tone you take  
I turned off the ring  
You mind your dates  
I'll fill it in

Please see these once  
Please see them in  
I'll let alone

Ever she flows  
Like a veil undeciphered  
It's me who knows by the way  
It's my mistake

You'll have to wait  
I haven't bothered  
To offer up debate  
I think that's obvious

We see these once  
We see them in  
I'm not alone

Let's get do this twice  
Unlike today, start again  
It's what you chose in the end
