

In Your Way

Treble Charger

What I heard yesterday
does not disturb me now
Its nothing much to speak of much less say
theres something wrong I know it
what I saw yesterday
set my teeth on edge
what I could bide before was no more
than a reason ahead
what would you like to say
its all been done its all been done
youll find nothing in your way
its all been done its all been done
what I knew yesterday
seemed enough at the time
should've guessed the way you left and didnt mind
that I meant to hurt you
what would you like to say
its all been done its all been done
youll find nothing in your way
its all been done its all been done
