

Soaker

Treble Charger

Im just trying not to listen
Ive been hanging around
all the things that you mentioned
kinda sink in the ground
Theres a kind of emotion
that describes how i feel
if youve been paying attention
its not such a big deal
I like your style I dont know how
the only thing that i need now
I like your style I dont know how
the only thing that i need now
Im just trying not to listen
Ive been hanging around
All the things that yove mentioned
kinda sink in the ground
I like your style i dont know how
the only thing that i need now
I like your style i dont know how
The only thing that i need now
