

# Fragile

Trembling Blue Stars

All alone  
I feel so fragile  
So vulnerable  
For so long

I've been without a harbour  
I've been without a harbour  
Just like anyone, I need someone, I need someone  
Someone to face the world with

Someone to face the world with  
All I want in the world  
Is to be held  
Just like anyone, I need someone, I need someone

Someone to face the world with  
I'm living in darkness  
I need a sunrise

Bring on first light  
Bring on first light  
Bring on first light  
Bring on first light
