

Fragile

Trembling Blue Stars

All alone
I feel so fragile
So vulnerable
For so long

I've been without a harbour
I've been without a harbour
Just like anyone, I need someone, I need someone
Someone to face the world with

Someone to face the world with
All I want in the world
Is to be held
Just like anyone, I need someone, I need someone

Someone to face the world with
I'm living in darkness
I need a sunrise

Bring on first light
Bring on first light
Bring on first light
Bring on first light
