

Cauterize

Tremonti

I am the chosen, the true son
Follow my rule to the word
You will learn, you will learn
I have provided the answer,
I have submitted your own
You will know, you will know

Take this sun and cauterize
Make us pure again
All the ways we victimize
Time and time again

We are the balance, the reason
We are the chance that ya take
Make no mistake, no mistake

Take this sun and cauterize
Make us pure again
All the ways we victimize
Time and time again
Again

I'm a shadow of what once had come and gone
And I'm dying
The pure hate that I dealt all that I've done, still defiant
How another one will arrive when I'm erased
I'm Erased

Take this sun and cauterize
Make us pure again
All the ways we victimize
Time and time again

Take this sun and cauterize
Make us pure again
All the ways we victimize
Time and time again
