

# My Last Mistake

Tremonti

I am every bone in all your body  
I am every sound you make  
I'm at every turn  
I'm every chance you take

You provide the loss that builds inside me  
Dreadful every time you wake  
You're my reason why  
You are my last mistake

Pull me inside draw me nearer  
And you will meet your end  
I swear that this time I will justify  
Until I flee again

Cradle all your love in such a hard place  
Precious few can hardly reach  
I'm the one you found searching for a little piece

I'm your fatal wound  
You've landed too far  
Lost out there without a trace  
I'm your last goodbye  
I'm the one who'll take your place  
Pull me inside draw me nearer  
And you will meet your end  
I swear that this time I will justify  
Until I flee again

Just like tragedy  
Folks line up to see  
We forget and the problem's gone  
It just ain't right to move on

Pull me inside draw me nearer  
And you will meet your end  
I swear that this time I will justify  
Until I flee again
