

Never Wrong

Tremonti

It's a brand new day
You're something now
You are everything
You ever dreamed about
I'll be your voice
I'll hide your face
I swear this time
That you are on your way

Believe me I'm the, I'm the one to fear
Those that are like us, see it all too clear
Your days, your nights, have taken everyone
You will be mine 'till the benefit is gone

Go and find, it won't take long
A weaker mind, prove they are never wrong
Now take their life, it is in your hands
Now you will recognize, for you have carried there

Believe me I'm the, I'm the one to fear
Those that are like us, see it all too clear
Your days, your nights, have taken everyone
You will be mine 'till the benefit is gone

The benefit is gone...

Believe me I'm the, I'm the one to fear
Those that are like us, see it all too clear
Your days, your nights, have taken everyone
You will be mine 'till the benefit is gone
