

Once Dead

Tremonti

Once dead once deceived
Twice bled under siege
Came on like a storm
Once dead forever born

When all the time is gone
I'll break you when you play along
I need your pain again
I know you'll bring it

Once killed once we fall
I've lived through it all
We sink like a stone
Once dead once below

(2x):

When all the time is gone
I'll break you when you play along
I need your pain again
I know you'll bring it
