

Tie The Noose

Tremonti

All that It takes
Is a little before it breaks
All that we kill
Will gain us nothing and it never will
And it never will, no, no

Tie the noose, watch the fall,
Lie awake right through it all.
Let's begin to lay to waste,
Consume it all, burn everything
I don't care, I know who's wrong,
You know what's right, knew it all along.
Now take your stand or pay the price again.

Take another turn
Breathe in new life from lessons learned
They, they know we're here
Turn from no one, embrace your fear
Yeah
Go embrace your fear!
Ohh woah

Tie the noose, watch the fall,
Lie awake right through it all.
Let's begin to lay to waste,
Consume it all, burn everything
I don't care, I know who's wrong,
You know what's right, knew it all along.
Now take your stand or pay the price again.
Or pay the price again.

Tie the noose, watch the fall,
Lie awake right through it all.
Let's begin to lay to waste,
Consume it all, burn everything
I don't care, I know who's wrong,
You know what's right, knew it all along.
Now take your stand or pay the price again.
Or pay the price again.
