

Tore My Heart Out

Tremonti

Show your will and do your part
Or be blind right from the start
Take your time and do it well
'Cause the fallout can be hell

Go and find, find the one
'Till you find the will is gone
Hide in the shadows, who would know
And the fire only grows

You tore my heart out
Took it all away
Is it so bad now?
Is it too late?

Looking back, who do you love?
See what's taken, what is lost
Gain our courage only when
We are faced with the world again

Go and find, find the one
Who defines there was
Going back, we reach again
Reach inside and reach the end

(3x):

You tore my heart out
Took it all away
Is it so bad now?
Is it too late?
