

Follow Suit

Trent Dabbs

soul on lock down
from open to closing
leave the fresh air to paper planes
the better life now
it must be hiding
far away from the same old thing

yeah, i got a long list of enemies
what's another gonna do to me?
i don't care if you don't approve
don't wanna hear about what you think
do your best to keep the best of me
nothing in my blood is ever gonna follow suit
follow suit

the cloth i'm cut from
don't take too kindly
to being held down in this restrain
it's under my skin
it's so unnerving
it kicks around in this tiny cage

yeah, i got a long list of enemies
what's another gonna do to me?
i don't care if you don't approve
don't wanna hear about what you think
do your best to keep the best of me
nothing in my blood is ever gonna follow suit
ever gonna follow suit
