## **Follow Suit**

**Trent Dabbs** 

soul on lock down
from open to closing
leave the fresh air to paper planes
the better life now
it must be hiding
far away from the same old thing

yeah, i got a long list of enemies what's another gonna do to me? i don't care if you don't approve don't wanna hear about what you think do your best to keep the best of me nothing in my blood is ever gonna follow suit follow suit

the cloth i'm cut from don't take too kindly to being held down in this restrain it's under my skin it's so unnerving it kicks around in this tiny cage

yeah, i got a long list of enemies what's another gonna do to me? i don't care if you don't approve don't wanna hear about what you think do your best to keep the best of me nothing in my blood is ever gonna follow suit ever gonna follow suit
