

# SmartPhones

Trey Songz

Oh, oh, oh, oh-aa  
Oh, oh-aa, ohhh

She picks up the phone  
In my head I know I'm wrong  
I just want to know what she's heard  
I'm pacing back and forth  
Cause I know that I've been caught  
Trying to think of the perfect words

So I can come to her and lie right to her face  
I don't know what I'm gonna say  
But I know that I'm gonna say  
Whatever it takes  
I'm a run to her and lie right to her face  
I don't know what I'm gonna say  
But I know that I'm gonna say  
Whatever it takes

Time is not on our side  
Cause she's waving goodbye goodbye  
She's waving goodbye goodbye  
Smartphones, dumb shit

I never knew I call so if she heard it all  
I'm all out of luck tonight  
I could say it was a joke but who am I kidding she ain't slow  
Only way to make it right

Is if I come to her and lie right to her face  
I don't know what I'm gonna say  
But I know that I'm gonna say  
Whatever it takes  
I'm a run to her and lie right to her face  
I don't know what I'm gonna say  
But I know that I'm gonna say  
Whatever it takes

Whatever it takes, whatever it takes, whatever it takes, whatever it takes,  
ohh girl

Smartphones, dumb shit  
Don't she wave goodbye goodbye  
Smartphones, dumb shit  
Don't she wave goodbye goodbye  
Smartphones, dumb shit, oh noo ohhh

Oh, man I got to think of something  
I'm about to lose it all  
I swear that shit really didn't mean nothing  
It all started with a pocket call

So I'm a run to her and lie right to her face  
I don't know what I'm gonna say  
But I know that I'm gonna say  
Whatever it takes  
I'm a run to her and lie right to her face

I don't know what I'm gonna say  
But I know that I'm gonna say  
Whatever it takes

Time is not on our side  
Cause she's waving goodbye goodbye  
She's waving goodbye goodbye  
Smartphones, dumb shit
