

## Right Behind You

Tribal Ink

You, always right beside me  
Never leaving your post  
You always find me in the end  
And never stop to bitch about the past  
Biting my neck from day one it never last  
I felt so suspicious from the start, my eyes covered up  
I'm blindfolded, a lost soul  
But I found my way through the mess you made  
Times up and it's time to pay!

Even though I once believed our love was never ending  
I had to face the fact you ruined it all!

You, can't see me, I stay in the shadows 'till you're gone  
Waiting just to see you cry  
(I'll be right behind you)  
You, can't find me  
No matter where you look, I won't be 'round  
I'll be right behind you  
(Right behind, right behind you!)

None of us wanted it to be this way  
I would be trapped in enemy land I'd stayed  
Like a ticking bomb  
About to blow anytime  
You're bad news  
And you've crossed the line  
'cause the world don't need a fool like you  
But I'm planning to stay, I got lots to do  
So before you close your eyes and, turn out light  
Take a look again, you'll find out where I might die!

Even though I once believed our love was never ending  
I had to face the fact you ruined it all!

You, can't see me, I stay in the shadows 'till you're gone  
Waiting just to see you cry  
(I'll be right behind you)  
You, can't find me  
No matter where you look, I won't be 'round  
I'll be right behind you  
(Right behind, right behind you!)

(Come on, come on!)

Right behind you  
None of us wanted it to be this way  
Like a ticking bomb, about to blow any time  
You're bad news  
This world don't need a fool like you  
Before you close your eyes, and turn out the light  
Take a look again to find out where I might die!

You, can't see me, I stay in the shadows 'till you're gone  
Waiting just to see you cry  
(I'll be right behind you)  
You, can't find me  
No matter where you look, I won't be 'round

I'll be right behind you  
(Right behind, right behind you!)

You, can't see me, I stay in the shadows 'till you're gone  
Waiting just to see you cry  
(I'll be right behind you)  
You, can't find me  
No matter where you look, I won't be 'round  
I'll be right behind you  
(Right behind, right behind you!)
