

## Come Around

Tribal Seeds

Baby come around  
Darling come around  
All the while girl, let me give you I loving  
Let me give you I loving

Girl I've been loyal without your request  
My mind is humble, I never boast my chest  
My words are few unto the others  
It's only you I wish to lay under  
So come come around this corner stone where I stand  
Cuz I choose the life of a humble man, be content  
Girl I'm wailing and praying for you to hear my call  
I'm waiting in vain for you to come along so

I wanna get high with you  
I wanna spend my life with you  
So tell me everything that's on your mind, mind  
I love your voice when your talking, especially singing  
I love your eyes when you're staring at me  
I love your lips when you're smiling and when they're  
touching mine  
You make me feel so good to be I  
I hate to see you leave but I love watching you walk  
away  
Promise me baby you will be back to stay  
Por que estoy ancioso por volverte a ver  
So I can run my fingers through your hair  
Never want to say goodbye to you  
Never ever wanna cry with you  
Never wanna hear a lie from you  
Never wanna say goodbye to you

Baby come around  
Darling come around  
All the while girl, let me give you I loving  
Let me give you I loving
