Dawn Of Time

Tribal Seeds

Heard of your voice, heard the melody of your song Know of your passion of your roots and culture For you know who brings forth, all the fruits of nature Who brings forth your light when the earth turn to dark Hear i little darling, ease your troubles down Hold to your faith, watch your troubles drown

Virtuous girl Jah has your heart Lust of earth couldn't set you apart This i know, have no doubt Cuz true faith never quick to give out Virtuous girl your eyes remind me of a time before this life Back to a dream when evil did cease As the dawn of time yea

Like a chizel to a rock, You have worked spoken word, carved them into i heart See truth in you eyes, hits all the time And heals as the green herb As smoke is driven away, drive them away Hold to your faith Jah see them from far away And judges their fate Hear i little darling, just sow to your ground Reap your love, for the wicked gone down

Virtuous girl Jah has your heart Lust of earth couldn't set you apart This i know, have no doubt Cuz true faith never quick to give out Virtuous girl your eyes remind me of a time before this life Back to a dream when evil did cease As the dawn of time yea

Ring out your voice, ring out your voice Virtuous girl

I am not of your world, your precious pearls Not value to i Boy i only want to take you Back to the dawn with me cuz i Know the number of noble men are few Take me away to the dawn of time

Virtuous girl Jah has your heart Lust of earth couldn't set you apart This i know, have no doubt Cuz true faith never quick to give out Virtuous girl your eyes remind me of a time before this life Back to a dream when evil did cease Tistende wawn of time yea
