

# Lake Of Sins

Tribuzy

Living as the nameless one  
We keep our lives on and on  
Without a way we  
Are treated as worms  
The Sky is my roof  
And the pain is my root  
The cry for freedom  
Is my only hope  
That makes my heart  
Break in two parts

And the darkened destiny  
Makes us fall on our knees  
We remember a time with  
Dreams in hands  
Deep in our mind sleeps the fire  
Which burns our desires  
White deep in our hearts  
We're bleeding silently

Dive inside of  
Your lake of sins  
Thus you will see what I mean  
Wash your soul in your lake of sins  
Dive Inside your dreams

When the night arrives  
You feel the fright  
So many lies  
You cannot sleep or carry on  
Mistakes you have made  
Now live on and on... and on
