Tricky & Costanza: I'm antimatter I don't matter Cancer phones Break my bones

I'm illusion
Sonic solution
Magic mind
Sonic pollution

I just detox
I just see lots
I see nothing
Show me something

We go round and round We make it safe and sound I try to break it down Alright (2x)

I have visions
Homosapiens
Fast I've grown
I think alone
I'm confusion

Evolution
I'm in man cub
Institution
I move forward
I make awkward

I just jump jump
I just thump thump

We go round and round
We make it safe and sound
I try to break it down
Alright
(2x)

I evolve Then dissolve Maintain my laws 'til April falls

My sea runs red My trees are dead My breath runs short Please report

Is there someone out there
Is there someone out there
Do you receive me
Do you receive me

We go round and round
We make it safe and sound
I try to break it down
Alright
(repeated)
