

# Really Real

Tricky

I don't feel, not in love  
And I love what's to say  
I don't want, I don't like  
I don't want you to stay

Any love, any want  
Do you feel any song  
Any type, just too much  
And I fear, and I say

I don't feel even love  
'Cos I'm loved without love

I don't feel love really real  
(I don't feel anything)  
I don't feel love really real  
(I don't feel anything)  
I don't feel love really real  
(I don't feel anything)  
I don't feel love really real  
(I don't feel anything)

Any choice, any voice  
Too much force could change the course  
And any lie with any why  
Swim in my head and let it there

With any heart, with any brain  
And any game we search the same  
My heart's the beat in every street  
I never care, it's never fair

I don't feel love really real  
(I don't feel anything)  
I don't feel love really real  
(I don't feel anything)  
I don't feel love really real  
(I don't feel anything)  
I don't feel love really real  
(I don't feel anything)

I don't feel love really real  
(I don't feel anything)  
I don't feel love really real  
(I don't feel anything)  
I don't feel love really real  
(I don't feel anything)  
I don't feel love really real  
(I don't feel anything)

I don't feel love really real  
(I don't feel anything)  
I don't feel love really real  
(I don't feel anything)  
I don't feel love really real  
(I don't feel anything)  
I don't feel love really real

(I don't feel anything)
