

It Hasn't Gone Away

Triggerfinger

Tried to run from it Tried to hide Tried to put it on a train K
icked and smacked it with a blunt shovel Tried to write it off
in a big refrain

To this day it hasn't gone away, it hasn't gone away

Tried to lose it in the forest Behind a breadcrumb trail Hit it
with a flat bed truck Dropped it in the middle of the bottom o
f the ocean Slipped it in my most poisonest of potions Threw it
off the aqueduct

To this day it hasn't gone away, it hasn't gone away

Infest it with the plague Run it over with a dozer I let it sli
de, let it slide from a steep mountainside

To this day it hasn't gone away, it hasn't gone away
