

Short Term Memory Love

Triggerfinger

And I've been watching your eyes.
I've been watching your move.
And I'm playing for the grand price,
Since I've been watching your groove.

And I've been watching you close,
and i've been watching your direct.
I've been watching your sin.
Just a little close garden of flesh.
From your sparks where it end.

And I've been watching your eyes,
I could read your step.
And baby, it's so hard, so hard
so hard, so hard.

I'll be anything you want me to be.
Starship trooper from another galaxy.
Show you anything you wanna see.
I'll be your short term memory love, baby.

And you've been watching my mouth,
'cause it's been quite some heard.
Wonder if it'll come down,
Yeah baby, throw you there.

And I've been watching your eyes,
I could read your step.
And baby, it's so hard, so hard
so hard, so hard.

I'll be anything you want me to be.
Starship trooper from another galaxy.
Show you anything you wanna see.
I'll be your short term memory love, baby.

Be your short term memory love, baby...

ohw ohw ohw...

I'll be your short term memory love
I'll be your short term memory love
I'll be your short term memory love
I'll be your short term memory love
love
love
love
love
love
love
love
love
love
