

# Happiness

Trijntje Oosterhuis

I was down and out till you helped me out  
Cause you came and took the wheel,  
You drove me to the sun.  
I've been cold and mad, just about to crack  
Lost my sense of what was real,  
And fair, in days to come.  
I was lost for words and attitude  
When you told me the simple truth  
You showed me how it's done.  
You gave me a sense of relief  
Giving me all the strength I'd need  
And let my heart and soul be one, oh yeah!

Maybe you've been an angel  
I've never seen a bigger heart  
All I want you to know  
I'm here for you, no matter what

Overload with happiness inside,  
I feel so overjoyed  
That you are watching over me  
So I will dance a little more,  
Stamp my feet all around the floor  
I won't let you get away  
Baby all I want is more!  
All I want is more!

Hey, hey, hey, I want it  
So come and get it!

Happiness, it feels like love,  
If you want it just push and shove  
Don't you see the way? Oh you said  
If you need a little more  
Kick your feet right through the door  
Honey, it ain't too late, no, no!

Maybe you've been an angel  
I've never seen a bigger heart  
All I want you to know,  
I'm here for you no matter what!

Overload with happiness inside,  
I feel so overjoyed  
That you are watching over me  
So I will dance a little more,  
Stamp my feet all around the floor,  
I won't let you get away  
Baby baby all I want is more (If you need a little more)  
Is more, is more (Kick your feet right through the door)  
All I want is more!

Overload with happiness inside,  
Overjoyed  
That you are watching over me!  
I will dance a little more,  
Stamp my feet all around the floor, hey

Overload with happiness inside,  
I feel so overjoyed  
I feel my feet above the ground  
I will dance a little more,  
Stamp my feet all around the floor
