

It's You I Need

Trijntje Oosterhuis

Do you ever wonder what it would be like
If once you took a left instead of right
We might not be here tonight now

But out of like a million possibilities
With all that might have happened differently
Life has brought you here with me tonight

And now that I've found you
I'm not gonna let you slip away
Oh and whatever fear may strike you
I'll be there to remind you
In this crazy life we lead
It's you I need

Do you ever wonder what is meant to be
'Cause everything that came so instantly
Could disappear as easily now
Baby don't you worry we will make it through
Whatever people say or people do
I'll never stop believing in you and me

And now that I've found you
I'm not gonna let you slip away
Oh and whatever fear may strike you
I'll be there to remind you
In this crazy life we lead
It's you I need
It's you I need
