

Lie To Me

Trijntje Oosterhuis

Oh you better lie to me baby
Sweet nothings, better lie to me baby
How I'll let you get away with it baby
I just want you to stay

I lost my senses through and through
Don't wanna hear about losing you
But somewhere deep inside
I already know it
I have doubts about your loyalty
Where you go when you're not here with me
Trying hard to deny
That you're fooling around

Oh you better lie to me baby
Sweet nothings, better lie to me baby
How I'll let you get away with it baby
I just want you to stay
Oh cause if you cheat on me darling
Your sweetest kiss don't mean a thing to me darling
Call me crazy
I believe in us darling
You're mine anyway

You're free to come you're free to go
But there is one thing we should know
There's something missing when we are together
cause baby I've got my fantasies
about a man that really cares for me
You and I
We can't go on like this forever

you run me round in circles
Don't you know what you've got
While you're out there cheating
What makes you think I'm not
What goes around comes around someday
I guess you're better of lying, baby
If you want me to stay
