

# Little Something

Trijntje Oosterhuis

Give a little something, something like you did before  
Give a little something, something like you did before

I can't forget  
All the times that you would feel me  
Step by step  
You found a way to please me  
Don't understand  
Your loving won't come easy  
Easy like it did before

Take my hand  
Come along lets talk it over  
I will take a chance  
I wanna be your lover  
say no more  
Cause the good times ain't through  
And colours will shine like before

(like before)  
Give a little something  
And I will never ask for more  
(like before)  
Just a little something  
Do it like you did before

Give a little something, something like you did before  
Come on, yeah

The way you look at me  
I can't handle all my feelings  
You're teasing me  
Gotta catch ya fore you're leavin'  
Day by day  
I gotta have a little bit more  
Hey baby,  
What are you doing to me, it's confusing me  
But I love to love this feeling  
Something good to me, something heavenly  
Give me something all the way  
Do you realise that we're losing time  
Can we come together  
Starting all our loving today

(like before)  
Give a little something  
And I will never ask for more  
(like before)  
Just a little something  
Do it like you did before

Like before, I keep on dreaming of you somehow  
And all the things we used to have  
Why should everything be different now  
Why don't we just give it a chance

Baby yeah

You got it going on babe  
Hear me when I say

Give a liittle something  
I won't ask for more  
Just a little something  
It's all I'm asking for  
Give a little something  
Do it like you did before  
Like you did before
