

We Are Gold

Trijntje Oosterhuis

You are the cute and I'm the funny When you're the bear I am the honey It's all been written down I am the sooner, you are the better Black or white, it doesn't matter I feel so alive, You're my glowing man, my only friend I'll be watching over you Like a hawk in your soul, together we're gold Baby we got it all under control Cause we are the kinda we're gold We don't give up no we never give in When stars are falling down, you know We're gold

You are the good and I'm the bad Give it all till there's nothing left We'll never be apart I am the queen and you're my king You smile and listen then I say Together we are one I'm your glowing girl, on top of this world Together we will find, the little piece of mind Together we're gold Baby we got it all under control Cause we are the kinda we're gold We don't give up no we never give in When stars are falling down, you know We're gold, we're gold, we're gold

You're my glowing man, my only friend I'll be watching over you Like a hawk in your soul, together we're gold Together we're gold together we're gold Together we are gold.
