

## What About Us

**Trijntje Oosterhuis**

It's one of those days, nothing has changed  
Though we are silent, there's so much to say  
Something ain't right, after all this time  
How can it be that we lead separate lives  
I feel insecure  
Nothing reminds me of you anymore

What about us, what about us  
What about the days when we did anything for love  
Tell me, what about us, I'm missing your love  
What about the promise of forever, tell me what about us

I look at our lives  
Our troubles denied  
I'm hiding my tears to the world outside  
We only make love  
Avoiding the talks  
I never thought this could happen to us  
If you care about love,  
Then why don't you care about us

Tell me, what about us, what about us  
What about the days when we did anything for love  
Tell me, what about us, I'm missing your love  
What about the promise of forever, tell me what about us

What happened to us  
We're strangers in love  
Why did it all slip away  
Baby it's not enough  
Doubts are stronger than love  
Give me a reason to stay  
What about us

I'm missing your love, what happened to us  
I would do anything , what about us  
What about love, I miss you and me,  
I'm missing the way that our life used to be  
Tell me, what about us
