

# Machine Gun

Trillium

So, what I want to know is  
How did you get through my security?  
Don't turn us into a war zone  
Here I thought with you I had immunity

So, here we go  
You're about to blow and I see now  
It was a set up with your talking  
And there you go  
Moving too fast and I'm too slow  
To duck and run because you wound

Like a machine gun  
No break, between a hit  
You're a machine gun  
And I'm running on for cover  
Like a machine gun  
The hurting never quits  
I'm under fire  
Fire!  
Machine...

Screw you with what you're about to do  
Set afire, annihilate our alliance  
Well, boo hoo  
So you were hurt before, too  
That doesn't mean that you're justified in your violence

Now it's a civil war  
'Cause you started this within the union  
Must want it bad, 'cause you keep talking  
But I'm no civil whore, civil bore  
Remember you started this  
Sight in and take aim  
Let loose...

Like a machine gun  
No break, between a hit  
You're a machine gun  
And I'm running on for cover  
Like a machine gun  
The hurting never quits  
I'm under fire  
Fire!  
Machine...

Too bad for you  
You're not the right calibre  
Smoke-stacked and bested by a girl  
Our treaty lost, thrown out through the window  
Watch out 'cause I learned from the best...

Now I'm a machine gun  
You're gonna learn how to take a hit  
I'm an extreme one  
I'll have you running on for cover  
Like a machine gun

The hurt will never quit  
I'm aiming higher  
'Cause I am becoming your machine gun  
And I'm never, ever gonna quit  
You're under fire  
Fire!  
Machine...
