

# I Want It All

Trina

You must have it twisted or have a shortage  
I ain't even empty handed I beg your pardon  
If I'm departing I'm taking everything  
Cause I'll be damned if another bitch wore your last name  
Put your hands up ladies if you want it all  
Put your hands up ladies if you want it all  
Put your hands up ladies if you want it all  
Say I want it all  
Say I want it all  
I want it all  
I want it all  
I want it all  
I want it all  
I want it all  
I want it all  
I want it all  
I want it all  
I want it all

I went looking for ur phone when I shouldn't have  
Cause I found just what I was looking for  
A new number says its Kelly should I call it or should I just ignore  
Now I'm sittin' here wondering when you're coming home  
Then I thought about it everything that's going on  
I gotta leave this relationship  
But I'm not leaving here  
So let me get my list out  
What do I want other than this house  
First off let me put your bitch out call me crazy if you want her  
But I don't care  
Now back to my list  
Gotta have the house check  
Do I want the car check  
Do I want the money check  
Gotta have it all check  
And I deserve it hope it was worth it  
And I don't think that I'll be needing your service

I need his house (I need his house)  
I need his car (I need his car)  
And then the bank (and then the bank)  
I want it all (I want it all)  
I gave you all my love and got nothing in return  
So now I want it all (I want it all)  
I want it all (I want it all)  
Gimmi the house (gimmi the house)  
Gimmi the car (gimmi the car)  
I want it all (I want it all)  
I want it all (I want it all)  
I want it all (I want it all)  
I want it all (I want it all)

If I'm gonna have to hurt u gonna feel it how I feel it  
Play the cards how I deal it  
You know I was the realist  
Cause the way you going bout this like I never meant shit  
Now you want the other bitch cause we had an argument  
O-K roll the dice I'm a show you how it go

And since u wanna do it dirty watch this fire crack a blow  
This ain't no tip or tap shit its all about the principle  
How you expect to leave me without a comma or decimal  
Pay me for my pain  
Pay me for my time  
Nigga you can say the bullshit cause everything is mine  
From the house in west pond to the yatch in burlese  
You can keep your sad face baby hand me them keys  
Cause the shit you said it did it  
Threw me way off track  
But when a woman is fed up no it ain't no turning back  
Only thing gonna make me smile is if I feel my satisfaction  
Is seeing you hurt is fuckin' you suffering while I'm relaxing

So now I need his house (I need his house)  
I need his cars (I need his cars)  
And then the bank (and then the bank)  
I want it all (I want it all)  
I gave you all my love and got nothing in return  
So now I want it all (I want it all)  
I want it all (I want it all)  
Gimmi the house (gimmi the house)  
I need the car (gimmi the car)  
I want it all (I want it all)  
I want it all (I want it all)  
I want it all (I want it all)  
Put your hands up ladies if you want it all  
Put your hands up ladies if you want it all  
Put your hands up ladies if you want it all  
Say I want it all  
Say I want it all  
I want it all  
I want it all  
I want it all  
I want it all  
I want it all  
I want it all  
I want it all  
I want it all  
I want it all

I need his house  
I need his car  
And then the bank
