She live by fear She die by choice Her skin the color Of your choice Fishnets for stockings Trying to get her stock up Rubber bands tie her locks up The music open hearts that lock up

Please don't leave me alone 'Cause I don't know where I'd go Please don't leave me alone Leave me alone Please don't leave me alone 'Cause I don't know where I'd go

Trying to find herself in vanity Knowing drugs the only sanity Simultaneously is a tragedy Twisted fantasies of heartache Overlaid emotions, heartbreak Watch her heart race James

Please, don't go James
Open your soul
Let the music flow
(Go, go, go)
Music flow
(Go, go, go)
The music makes you
(Go, go, go)
Her energy makes you
(Go, go, go)
Find yourself
