

## But I Do Anyhow

Trio

You wouldn't want me when you had me  
why should I want you now  
but I do anyhow

I'll be around if you will let me  
though they say you do wrong  
won't be long till you're gone

Once again you will forget me  
but this time I won't cry  
when you say your bye bye

I know there is no use for my complaint  
I knew that all my tears would be in vain
