

Beautiful Life

Trip Lee

Beautiful life inside
Living, moving, breathing
So let hope arise
God knew what he was doing when He gave
Beautiful, beautiful life
Let it live

Brother, I bet you were caught off guard by that seed in her stomach
So your heart aches hard
Feeling trapped like prisoners behind those bars
The hand's been dealt, but you don't wanna take those cards
Homie, stop and think about the choice
That baby in her womb, she ain't really got a voice
So she really needs her daddy to love her and rejoice
She's a blessing from the Lord
She don't need to be destroyed
Don't abandon her mama
Love her and support her
She's in pain now, too
She needs someone there for her
But don't let her hurt you
Baby girl alive in the womb
Cause homie, you'll be looking in her eyes pretty soon
Hey, don't get me wrong
Look, I agree that we should give women rights
That goes for unborn women, too
Give them life
