

## Good News, Pt. 2

Trip Lee

[Hook:]

The bad news, we were born in sin  
The good news we can be born again  
The bad news, we were born in sin  
The good news, we can be born again

[Verse:]

So the world went on, sinnin' and all  
God even flooded it once to get rid of it all  
Time and time again all men would just fall  
So God the Son decided to come in the midst of it all  
The Word became flesh to suppress our danger  
He emerged from a virgin that would rest in a manger  
An angel had came to say that she was highly favored  
She became the mother of the one that became the savior  
But a little bit before that amazing day  
He called on John the Baptist to make the way  
And when John saw Christ comin he told the men and the girls  
"Behold the Lamb of God who takes away the sin of the world"  
He knew that Christ had come for our survival  
Soon after He would go to call his disciples  
He would guide them, advise them to live by the bible  
They were privileged enough to get to walk beside Him  
And they preached to others as He taught them the code  
They always rolled together like Tommy and Cole  
They were all nice guys, spiritual cats  
And they even got to witness His miracle acts  
He fed thousands when they didn't have enough bread  
He healed blind, even raised Lazarus from the dead  
But one day He called them all to meet in a room  
And he sadly told them He'd be leavin' them soon  
He said He'd be betrayed by one of these in the room  
But didn't say He would die and raise in three from the tomb  
Or that He'd be the one to clean us like a broom  
Just so He could save you and me from the doom, of...

[Hook]
