Good Thing

VERSE 1 The gift of God has given got me so amazed I get better than if earned like I'm overpaid I ain't deserve it at all homie I know it's grace But God gave me a wife to hold for all my days She got me more than dazed Babe, your more than antidote to lonely days You're my partner, you got my back with no delays You don't just hold me down, you help me behold his ways We seek His holy face though the surface is only grazed Babe, I never thought that I would be the type To choose and chill with my wife over trying to sleep at night But, we kick it real hard, you never leaving right? Well good, cause I love the ways that we alike I found a good thing, praise God for wedding bells This marriage is a picture of the story heaven tells That means this oneness can't be severed, well very well By God's grace I married well. I Found a good thing. CHORUS You'll always be my love (oh my my my) You'll always be my love (my oh my) I love you, I'll never leave, I want it to be Always you and only you, I've found a good thing. VERSE 2 They say that boy insane. He gone he lost his brain He too zealous, he's just trying to go against the grain He's got his whole life ahead of him, so this is strange But they don't get that getting other chicks just isn't gain And marriage is a pain, in fact it's love and joy. God's plan for man and woman they wanna destroy By acting like it's prison, avoid it cause it's hard Look honestly if it don't hurt than you ain't loving hard Look at Jesus on the cross he got a ton of scars Laid his life down for his bride cause his love is large My Lord he set the bar high, and I'm falling short But I'll be standing with my Savior when I'm called in court So please forgive me baby when I don't love you right You're so patient with me girl because He's in your sights.

CHORUS

You'll always be my love oh my my my You'll always be my love my oh my I love you, I'll never leave, I want it to be Always you and only you, I've found a good thing.

Bye bye to boyish ways, hello to family man.

So lets take on the world, lets love em hand in hand

VERSE 3

We prayed our wildest dreams his will be done we said. So lets be praying bracing ourselves for what comes ahead. We pleaded with the Lord that he would give a child And he graciously gave, though it took a while. That is a precious little soul. One who lives and moves. Never forget the way you smile when you broke the news And now your belly's growing, baby your skin is glowing

Trip Lee

I already love him I can't wait to get to know him. Till then I'm praying for him, that Jesus would sustain Our little baby protect him so his life remains. Through all the joys and pains, you know your husbands here We'll run this race together. Let's get this one thing clear I'll never leave your side, I wasn't playing with you When I wrote them vows, baby girl I'm staying with you And there ain't nothing that can separate us in this life Can't nothing ever separate us from the love of Christ BRIDGE For ever ever ever The Lord gon be with us for ever ever So girl I ain't gon leave you ever ever ever The Lord gon be with us for ever forever ever So girl I ain't gon leave you ever ever ever The Lord gon be with us for ever ever So girl I ain't gon leave you ever ever ever The Lord gon be with us for ever ever

Ever ever

You'll always be my love oh my my my You'll always be my love my oh my I love I'll never leave I want it to be Always you and only you, I've found a good thing.
