

# Gotta Grow

Trip Lee

Verse 1:

I wasn't never the type that's tryna kill folks (Nothing too bad maybe dabble  
d in a lil smoke  
A lil lust, but wasn't never seen as a bad dude  
Was livin for myself dreamed of wealth and makin cash move  
Was told of a savior who raised named Jesus  
That paid full of grace and I did believe it  
They told me He would hold me and I was blessed wit Christ  
I'm like, "I get to go to Heaven? Man I'm set for life."  
But after that, I was just ya average Sunday Christian  
Up in church wit my bible, back Monday sinning  
Up in the school yard trying hard to blend in  
Was acting dead as a carcass and far from livin  
I was all up in the world, I was just like the rest of them  
Called myself a Christian, but would sin with the best of them  
I wouldn't share my faith or read my Word its crazy  
I was a immature believer, a spiritual baby

Hook:

We gotta grow, we can't stay in the same place  
We gotta grow, we gotta be seeking His face  
We gotta grow, so if you saved and you've been pardoned  
We gotta grow, you ain't done you just getting started  
(Repeat)

Verse 2:

I was my own guide, would never dive in His truth  
But didn't realize that I was set aside for His use  
So I'd just live for what I thought was my best interest  
Around nonbelievers you couldn't tell the difference  
Wasn't a thug, nah I ain't got no horror story  
But was living for myself not the Lord and His glory  
My confession: I didn't seek my Dad's perfection  
Was going down the wrong road like I had bad directions  
Until He showed me not imitating the Christ  
And living for me I was truly wasting my life  
And that Christ died so I could have relationship  
But by my actions I refused to take this gift  
Until He made a switch and now I want some more of Him daily  
By His grace I'm growing and have matured from a baby  
I'm so grateful that I've been torn from sin  
And day by day He's making me more like Him

Hook

Verse 3:

So for my believers, I just wanna encourage yall  
To draw closer to the Lord I know you heard His call  
Even if you ain't smoking or shooting at domes  
If you don't do it all for His glory, you doing it wrong  
Heaven ain't the only reason we got saved  
If we don't get to know Jesus then we got played  
Plus we gotta change, He said He'd change us all  
And that faith without fruit, that ain't faith at all  
Sanctification, check Romans 6  
We 'posed to switch, die to sin and grow in holiness  
All my brothers and sister I know this walk is tough

But even if you young just getting saved is not enough  
We gotta talk to Him, read who the Lord in the skies is  
The reason we breathe is to enjoy and glorify Him  
I'm grateful the Father is changing ya boy  
And getting closer to Him is an unexplainable joy

Hook
