

If I Had A Tattoo

Tripod

If I had a tattoo
I would get one of you
Or at least of a generic womans body
Draw your head on with a texta
If I had a tattoo
I would get one of your name
Or at least I'd get the alphabet
And circle all the letters that I needed
You know I wanna stay with you forever
(ooooo, ooooo)
Spend eternity with you
There's nothin that our love won't last us through....
But a tattoo
Just seems so permenant.....
If I had a tattoo
I would get one of you
Or at least of a generic womans body
Draw your head on with a texta
If I had a tattoo
I would get one of your name
Or at least I'd get the alphabet
And circle all the letters that I needed
You know I wanna stay with you forever
(ooooo, ooooo)
Spend eternity with you
There's nothin that our love won't last us through....
But a tattoo
Just seems so permenant.....
So I got a tattoo
From a temporary tattoo parlour
The tatto it stayed on
But the parlours gone
