Trippie Redd

Yeah, now why the fuck you wanna test me?  
I'll hit you with the right and the lefty  
Yeah, your bitch was with you right when she left me  
VVS, them diamonds ice, yeah my neck bling  
Nigga, your neck green  
I took the gang out to eat and they ordered everything  
I put my soul in these cups and don't worry 'bout anything  
I put my soul in these cups and I watch my kidney bleed

Take about three rights and you know you're left with me  
Baby you right and you know you're left with me  
Told you that right before you had left the scene  
Take a left hook and right hook right to the spleen  
You know the sky is the limit, you can have anything  
You can die for the living, you still gon' live through me  
You can cry to these bitches, they still won't feel a thing  
So I don't feel for these hoes, I just feel Hennessy  
I'm smoking this Do-Si-Dos, feeling the energy  
That's the reason I'm the shit, dawg  
VVS them diamonds in my wrist, dawg  
Hit him with the left and right, I'm pissed off

Yeah, now why the fuck you wanna test me?  
I'll hit you with the right and the lefty  
Yeah, your bitch was with you right when she left me  
VVS, them diamonds ice, yeah my neck bling  
Nigga, your neck green  
I took the gang out to eat and they ordered everything  
I put my soul in these cups and don't worry 'bout anything  
I put my soul in these cups and I watch my kidney bleed

Bust you down with the jewels on my pinky  
White gold, diamonds so my drip is milky  
If you want smoke, my gas is sticky  
I'm with the gang, pull up if you feelin' risky  
I got a Uzi filled with candy  
Bitch, you look a little hungry  
Open up your mouth  
I can put this lead inside of your tummy  
My sticks and stones will break your bones  
Your aim will never touch me  
All these hoes will come and go  
I stay counting up my money

Yeah, now why the fuck you wanna test me?  
I'll hit you with the right and the lefty  
Yeah, your bitch was with you right when she left me  
VVS, them diamonds ice, yeah my neck bling
