Aye, it was always a, uh, a fucking goal to uh, give all these niggas hell k

A love letter to you, two

Ooh, for your boo

Baby wish me well

Baby wish me well (Wish me well)

It's all a dream just like a wishing well (Well)

To give em' hell, and you know that I live in hell (Hell)

A livin' hell, I'm hell boy, livin' hell

I let the money dance, the diamonds bling's all by itself

Without any help, so that means it shine on it's own

Without any gold, I've been a king without any thrown

It's time to take your ass to school, ain't no place, like, home

I'm 1400 with the screw up kid's, don't screw up kid

Or that choppa wet your crew up kid, I'm two up kid

We animals, better zoo up kid

I'm from Canton but the whole country where I blew up big

Who knew us kid, I think I came from under a rock

Was out on the block, my cousin had that shit in his sock

He movin' the work, your bitch all over my cock

I put dick in her mouth, like the whole mother of bombs

And I ain't talkin' Donald Trump, but I'll take Donald out the trunk

And let Donald's ass bust if you keep talkin' down on gang

I just pulled up in a lamb, cuzzo pulled up in a range

And we reloadin' them sticks lil' nigga, we release them things

Hold up, give em' hell, give em' hell

I been on the road wish me well, wish me well

Give em' hell, give em' hell

I been on the road wish me well, wish me well

Baby wish me well (Wish me well)

It's all a dream just like a wishing well (Well)

To give em' hell, and you know that I live in hell (Hell)

A livin' hell, I'm hell boy, livin' hell

Baby wish me well (Wish me well)

It's all a dream just like a wishing well (Well)

To give em' hell, and you know that I live in hell (Hell)

A livin' hell, I'm hell boy, livin' hell
